PROFESSIONAL SUMMARY

B.Tech CSE (AI) student with experience in full-stack development and AI/ML. Proficient in Python, Java, JavaScript, TensorFlow, Firebase, and GCP. Built real-world projects including a real-time SOS emergency platform and a deep learning-based plant crop disease detection system.

EDUCATION

Medi-Caps University, Indore (M.P.) — B.Tech in Computer Science, Specialization in A.I.

Aug 2022 – June 2026 | CGPA: 7.78/10

Shivjyoti International School, Kota (Raj.) (CBSE) — 12th

2021 – 2022 | Percentage: 73%

Bansal Public School, Kota (Raj.) (CBSE) — 10th

2019 – 2020 | Percentage: 75%

EXPERIENCE

Software Engineer Intern – Edunet-Shell Skills4Future (AICTE)

Feb 2025 – Mar 2025

- Developed Python-based solutions for real-world problems, applying algorithm optimization and debugging to improve efficiency and code performance.

AI/ML Summer Intern – Google AI/ML Program, Medi-Caps University

June 2025 – July 2025

- Built and evaluated Machine Learning models using NumPy, Pandas, Scikit-learn.
- Performed data preprocessing and feature engineering, improving model accuracy and robustness.

Python Developer Intern – Oktets Private Limited

January 2026 – May 2026

- Worked on maintenance and enhancement of the PARINAM web application portal.
- Performed bug fixing, module updates, API integration, and database query debugging to improve system performance.

PROJECTS

Alertify – SOS Emergency Application

Technologies: HTML, CSS, JavaScript, Firebase, Google Maps API

Built a GPS-based SOS system with real-time location tracking, leveraging Google Maps API and Firebase for instant alert delivery.

Plant Disease Detection System

Technologies: Python, TensorFlow, Keras, OpenCV, Flask, MongoDB

Developed a deep learning image classification model for automated crop disease detection. Used OpenCV image preprocessing and deployed via Flask, improving accuracy and scale.

TECHNICAL SKILLS

Programming & Core: Python, C/C++, JavaScript, SQL, Data Structures & Algorithms, DBMS

AI/ML & Data: TensorFlow, Keras, OpenCV, Scikit-learn, Pandas, NumPy

Web, Cloud & Tools: HTML, CSS, REST APIs, Firebase, Node.js, GCP, Git

CERTIFICATIONS

- Google AI/ML Program, Google Arcade Champion (46 Skill Badges)
- Cisco Python Essentials 1 & 2, Microsoft Azure AI Fundamentals
- Generative AI & Responsible AI Certifications
